**DETAILED ACTION**

***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-5 drawn to a general method for mounting a display panel classified in class 349 subclass 187.
- II. Claims 6-10 drawn to a display panel housing classified in class 349 subclasses 58, 60 and class 361 subclass 681.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case, the method for mounting the display panel can be practiced by the mounting of any general display device and is not limited to the device as claimed in claims 6-10.
